

DECLARATION OF SUITABILITY FOR MATERIALS AND PRODUCTS INTENDED TO COME INTO CONTACT WITH FOODSTUFFS

We hereby declare that in the conditions of use planned and predictable and in the state in which they are sold, the products produced and supplied by Mobil Plastic SpA manufactured in various sizes and marked with the specific logo  are suitable for repeated use in contact with food substances.

Such articles are produced by Mobil Plastic SpA in accordance with the Guidelines and the Reference Standards Regulations (Reg. EC 1935/2004, Reg. EC 1895/2005, Reg. EC 2023/2006 and EC Reg. 10/2011, DM 21/ 03/1973 and Presidential Decree 777/82 and subsequent amendments / additions).

The above mentioned products are made using materials (PP, HDPE, LLDPE, LDPE, PC and masterbatches) and manufacturing processes suitable, controlled and compliant with the current regulations.

The analytical tests done to certify the suitability for contact with food substances have been carried out in accordance to EC Directive 82/711 and to the EC Regulation 10/2011 and subsequent amendments / additions.

The materials used to produce these products :

- do not contain substances listed in Annex I and II Reg. EC 10/2011;
- do not contain substances which are restricted;
- do not contain substances not permitted;
- do not contain "dual use" additives (Regulations EC 1333/08 and EC 1334/08);

In the conditions of use following mentioned these products respect the limits of global migration to the following test conditions: 10 days at a temperature of 40 ° C in contact with food simulants A, B, C, D1 and D2 with a ratio between the exposed surface of the sample (dm²) and the liquid volume of simulant (dl) between 0.5 and 2.

Due to that these products are suitable to be contact with food substances corresponding to simulants A, B, C, D1 and D2 Table 2 EC Reg. 10/2011 for :

- the conservation and at prolonged storage at room temperature or lower;
- for the heating up to 70 ° C for a duration up to 2 hours;
- for the heating up to 100 ° C for a duration up to 15 minutes.

The end user of the products purchased from Mobil Plastic SpA has the responsibility to communicate to Mobil Plastic SpA any restrictions because of the characteristics of composition (presence flavorings or additives) of the food to be packed / stored.

The use in the industrial or commercial material indicated in this statement does not exclude that it complies with current standards of competence and suitability of the technology for the intended purpose.

This statement is effective as of the date specified below and will be replaced in case of substantial changes in the production of material that can change some basic requirements for compliance or when the legislative references mentioned in this statement will be modified and updated to request a new verification for compliance.

Confienza (PV), 05th December 2016
