## Quality without Compromise

Hospitality is a demanding industry that has specific, ever-evolving needs. The unique blend and amalgamation of raw materials, breakthrough technology and a quality assurance team, guarantees that all Ariane Fine Porcelain items are kept in line with these requirements.

### Dishwasher Safe

Our porcelain is fired at high temperatures which making it highly resistant to repeated dish washing cycles at high temperature.

### Edge Chipping

The special high alumina material used by Ariane Fine Porcelain offers strength, durability and resistance against chipping to critical points like edges of cups, plates and handles.

This composition reinforces the porcelain, reducing risk of breakage and increasing the porcelain's lifetime.

### Microwave & Salamander Safe

Ariane Porcelain products are both microwave and salamander safe due to their heat resistant layer of glaze. (Other than products with all kind of decorations including with precious metals like Gold, Platinum etc.).

### Smooth Appearance

The special glaze fired at high temperatures not only gives all our porcelain a smooth, clean finish, but also ensures that it becomes completely non-porous, guaranteeing higher levels of hygiene.

### Limited Danger in Case of Breakage

The products are designed to avoid breakage hazards, as they break cleanly into safely manageable pieces.

### Thermal Shock Proof

Ariane Fine Porcelain not only retains heat to keep the food warm, but also is resistant to variations in temperature.

### Perfect Functionality

All our designs focus on absolute functionality. Most items are stackable including cups, bowls and platters, which enables the most efficient use of space.

### Abrasion Proof

The special glazing fired under high temperature ensures strong resistance to scratches or abrasions.
